Connor Baba

Web Developer

connorjbaba@gmail.com | (209) 631-6249
Website: **www.ConnorBabaCode.dev**

Summary

A passionate developer that has experience working with clients to build, improve, and fix their web development projects.

Skills

React.js   JavaScript   CSS3   HTML5   ES6   Vite   npm   Git (Version Control)   VS code   PowerShell

Professional Experience

Web Developer
Freelance Developer via Upwork

Hartford, CT (Remote)
December 2021 – Present

Work and communicate with clients to deliver results on a variety of projects relating to Web Development. Examples include:

- Decrease load times by up to 6 seconds and improve google lighthouse score by up to 50 points
- Work with marketing team to build a new site and provide updates as needed
- Refactor entire site from Shopify 1.0 format to Shopify 2.0 format
- Connect e-commerce database to 3rd party warehouse order fulfillment service backend
- Fix a bug that caused the French translation feature to not function
- Restructure UI to improve page flow, conversion rate optimization and search engine optimization
- Consult site owners on UI/UX improvements
- Transfer client domain name to newly rebuilt site

Projects

www.ConnorBabaCode.dev: Used HTML, CSS, JavaScript, and React to design and build site from scratch. The site is responsive and features a dark mode toggle, a score of 100 for best practices and 90 for performance via google lighthouse.

React Chat App: A full stack web application built using React, CSS, HTML for the frontend and Firebase for the backend. This web app allows users to sign in with google or a guest account to submit messages into the chatroom in real time. **https://connorbabacodes.github.io/chat_app/**

Education

University of Hartford – *Master of Music*
California State University Stanislaus – *Bachelor of Music*
